**Subject:** Pesticide Advisory Committee Meeting - Draft Agenda

Hi all,

I wanted to send out the Pesticide Advisory Committee draft agenda for the upcoming April 22, 2019, meeting. Please let me know if you have any additional topics you would like to discuss.

Since January we have had quite a few things come up and we'll be having someone from the Groundwater Program talk about SB19-186, which addresses surface water sampling, but specific to the PAC's rule promulgation directive, fee increases to Pesticide Product Registration fees to support these new program requirements (if it all passes through the legislature this session.)

In addition, we need to start talking to the PAC about the C&T State Certification Plan provisions we must meet in the State Certification plan, which is due March 4, 2020, to EPA. I do feel we need to be transparent and inform industry of the real possibility of losing primacy if we're unable to meet this deadline.

If you have any questions or have additional topics you would like added to the agenda please let me know.

Thank you,

John W. Scott  
Pesticides Program Manager, Section Chief
